Business Case : Digitalization franchise workflow platform

Dates : October 2026

1. Executive Summary and Problem Statement

A. Background

Franchising sign up procedure until acceptance between franchise owner and franchise user could take a long step due to manual process and using variety of platform to conduct this process. This effects:

- Sign up process from start to end take longer duration.
- Risk of data loss such as NPWP and ID card.
- Lack of transparency between franchiser and franchise partners which make franchise partner not knowing the process in real-time.

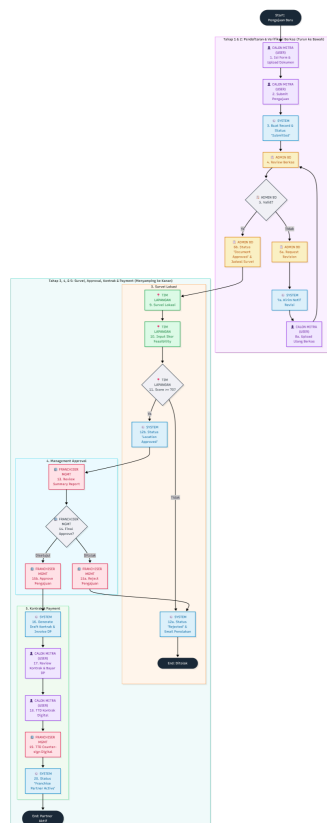

B. Project goals

Create end-to-end platform that covers entire process of sign up franchise, including digitalization sign up form, document verification, location survey, and approval between franchiser and franchise partner.

C. Success Metrics

- Reduce sign up duration up to 60% (from 35 days to 14 days only) .
- Avoid losing candidate of franchise partner up to 10% .
- Documents verification could be done in 48 hours / 2 days.

2. System Workflow

3. User Persona (Sample based on common personas)

Persona	Role	Primary Need	Pain Point Utama
